Assumptions

This User Manual assumes that you already have e-Pak Acquisition and Disposal System (e-PADS) user accounts according to your Geographical/Ministerial/Departmental level and role. This user manual also assumes that you are familiar with basic computer skills and basic web-application operations.

User's Qualification Requirements

- 1. Public procurement domain expertise.
- 2. Must be BPS-17 or above official.
- 3. Good communication skills.
- 4. Good computer and software operation skills.

System Requirements

The e-PADS is accessible from any Personal Computer (Desktop, Laptop) with Internet access and a supported Web-browser.

Latest versions of the following browsers fully support e-PADS standard view:

- 1. Mozilla Firefox (Windows, Mac, Linux)
- 2. Google Chrome (Windows, Mac, Linux)
- 3. Netscape (Windows, Mac, Linux)
- 4. Safari (Mac)
- 5. Internet Explorer 9 and above (Windows)

OVERVIEW

of e-Pak Acquisition and Disposal System (e-PADS)

This *User Manual* provides step-by-step instructions for getting started with the e-Pak Acquisition and Disposal System (e-PADS). It provides guidelines on application features and how to use the user management module. This user manual is organized according to the logical flow of e-PADS features and describes tasks in the same order users can perform while using the system.

Before You Begin...

It is recommended to have a stable working internet connection and web browser for web-access to the e-PADS web portal to view it alongside this manual.

INTRODUCTION

Governmental agencies all around the world have been using information technology (IT) and the internet to access and deliver government services electronically for several years. These activities are referred to as "e-government efforts." Delivering electronic procurement to increase transparency, provide an open market for procurement needs, and promote the adoption of procurement reforms to better manage and monitor public procurement activities is one of many governments' more effective and practical approaches. With the advent of computerized procurement systems, a variety of new alternatives and techniques for assisting the procurement procedures of governments for embracing the potential savings and efficiencies. The term "electronic government procurement (e-GP)" is frequently used to describe these electronic systems.

The Government along with World Bank envisaged and conceived revolutionary digitization of the public procurement processes. For this purpose, PPRA initiated "Designing, Development, Installation and Commissioning of e-Procurement System (e-Pak Acquisition and Disposal System)". Through the development of such an effective system, PPRA intends to fully automate the public procurement processes in Pakistan, by reducing human intervention to the maximum extent possible. The system will encompass a complete procurement cycle, from procurement planning to the close of the contract. The key features of the e-Procurement (e-Pak Acquisition and Disposal) System encompass e-Procurement Planning, e-Purchasing, Encrypted Tender Submission System, e-Evaluation Matrix System, Grievance Redressal System, e-Contract Award System, e-Catalogue Management, Supplier Relationship Management, and effective Contract Management System. One of the essential outcomes of the System will be effective Regulatory Monitoring & Evaluation, resulting in effective regulatory compliance and

helping to combat corrupt practices in public procurement. Abacus Consulting will implement and deploy the project in line with best practices and international standards and as per contractual obligations.

Following are the key objectives of this assignment:

- 1. To implement state-of-the-art customized solution as a key enabler to automate complete procurement cycle
- 2. To deploy a robust, advance, and futuristic e-Procurement System
- 3. To improve governance and institutional capacity of PPRA's and procuring agencies
- 4. To serve as ICT backbone and a driving force for e-governance initiatives in Pakistan
- 5. To automate and integrate procurement processes as well as to enhance transparent spending and cost-effectiveness along with efficiency in public procurement
- 6. To eliminate paperwork and repetitious administrative procedures through computerization
- 7. To adequately change organizational culture by encouraging technological vanguard
- 8. To strengthen, monitor and oversee capacity of procurement regulatory authorities
- 9. To set-up procurement data management and information system
- 10. To ensure robustness of internal and external procurement controls
- 11. To facilitate capacity building of procurement staff
- 12. To increase effectiveness of grievance redressal for a through automation
- 13. To harmonize, improve and update laws, rules and procedures and make use of technology facilitating transparency, efficiency, impartiality, and competition
- 14. To reduce costs by preventing duplicate spending through computerized standardized buying
- 15. To increase transaction speed by electronic handling of tasks that support and simplify the purchasing processes
- 16. To reduce errors and redundancy through electronically streamlined correspondence

All public procurement and disposal activities shall be processed through standard entries in e-PADS ensuring the compliance with the principles of public procurement and implementing PPRA regulatory framework.

BENEFITS

Governments and public sector agencies that have implemented e-GP systems have reported several key benefits, including

- i. enhanced transparency achieved from online publication of tender notices, contract award notices, and online bid submission.
- ii. increased bidder participation due to better awareness and access to opportunities.
- iii. savings on procurement spend from lower bid prices due to better and open competition.

- iv. enhanced reporting and procurement analytics to better monitor procurement activities.
- v. faster processing of procurement activities resulting from online workflow.
- vi. enhanced tools to address fraud and corruption.
- vii. reduction in printing, distribution, and storage of paper documents.

MODULES

The key modules of the e-PADS Wave-I encompass.

- 1. Web Portal
- 2. User Management
- 3. Supplier Registration
- 4. Procurement Planning and Activities
- 5. Committee Management
- 6. e-Tendering / Bidding
- 7. e-Evaluation
- 8. Contract Award
- 9. Workflow
- 10. Task Management
- 11. Configuration Management (CMS)
- 12. Reports & Dashboards
- 13. Alerts and Notifications

PURPOSE OF TRAINING

The purpose of this training is to provide participants with a clear understanding of effective public procurement and the generic procurement process. User Management module and its operations.

LEARNING OUTCOMES

By the end of the training session users will be able to:

- 1. Describe the principles of effective public procurement.
- 2. Create and Maintain Organization Entities like PPRA, Ministries, Departments, Sub Departments, etc.
- 3. Create and Maintain User Roles and Groups
- 4. Create and Maintain Users (Password Change, Password Reset, Approve User, etc.)
- 5. Merge and Split Ministries / Departments

TRAINING MODULES

- Module One: Understanding the Procurement Environment
- Module Two: User Management

TRAINING MODULE ONE: UNDERSTANDING THE PROCUREMENT ENVIRONMENT

Principles of Public Sector Procurement

1.1 Session Objectives

By the end of this session the users should be able to:

- Define Procurement
- Explain the objectives of procurement for Public Procurement.
- Identify various forms and categories of procurement.
- Identify recommended principles of procurement in Public Sector.
- Understand the roles and responsibilities of the various parties in procurement in Public Procurement.

1.2 Introduction

What is Procurement?

"Procurement is the acquisition of goods, services and works to cater the identified needs of and organization".

1.3 Procurements in Public Sector

The overall responsibility for the execution of the procurement process in the Public Sector solely relies on the Procuring Agency. The Procuring Agency is required to establish a Procurement Committee that will handle all matters concerning the procurement of goods, services and works. The Procurement Committee has powers to award contracts for procurement of goods, services and works.

1.4 Objectives of Procurement

The objectives of procurement are:

- To provide Procuring Agency with a constant flow of goods, services and works to cater its needs.
- To reduce cost through more efficient and effective purchasing by buying appropriately to obtain "Value of Money" without compromising the quality of goods, services and works.

1.5 <u>Categories of Procurement</u>

Procurement can be categorized into the following broad categories:

- Works: Construction, design, rehabilitation, maintenance and repair of buildings, bridges, roads, plant, etc.
- **Goods:** Include goods such as materials, drugs, food items, stationery, and office supplies, etc.

- Non-Consultancy Services: Such as cleaning services, revenue collection, security services and repair services.
- **Consultancy Services:** Studies for designs and provision of technical assistance, training, engineering design and supervision etc.

It must be noted that some of these terms have also been defined in the respective Public Procurement Rules as well. Please refer to the respective Rules for an exact definition.

1.6 Principles of Public Procurement

The overall objective of the public procurement system is to provide value for money to Procuring Agency by ensuring that public funds are spent in a transparent, efficient, and fair manner. The procurement guidelines and procedures for Procuring Agency are designed to promote competition, fairness/equity, transparency, accountability and ethics, and value for money.

The basic principles for the procurement of goods, services and works, within the public sector are:

- **Transparency:** Procurement process should be conducted in such a way that there is openness and clarity on procurement policy, and all interested parties know and understand the actual procedures and processes by which contracts are awarded and managed. A transparent procurement system is the one that has clear regulations and procedures, standardized tender documents, standardized tender contracts and a fair process.
- Accountability: The public officials who are dealing with procurement activities have responsibilities and obligations for performance and stewardship. A good procurement system should have clear lines of responsibility in decision making and public officials responsible for procurement should be made accountable for their decisions.
- Equal Treatment / Fairness: An efficient public procurement system should give all participants an equal chance to compete and by avoiding discrimination among potential bidders. Potential suppliers should be treated equally and with utmost fairness throughout the contract award process.
- Value for Money: Procurement process should aim at acquiring the right items at the right time, and at the right price to support government actions.
- **Appeal Rights:** Potential suppliers should be provided with a mechanism for review of grievances and correct failures of the system.
- **Integrity:** The public officials responsible for procurement activities should not involve themselves in corruption or collusion with suppliers or others.
- **Competition:** Procurement should be carried out by competition unless there are convincing reasons to the contrary. Public procurement system should be able to attract high quality national and international suppliers and contractors capable of meeting government needs through competition.

1.7 Good Practice Standards

- Public entities involved in the procurement process should be held accountable and the process should be transparent.
- Avoid favoritism and corrupt practices in the procurement process; the process should be equitable, fair, and honest.
- The procurement procedure should ensure a high enough level of competition.
- The authorized procurement committee will ultimately decide on all procurement activities.

1.8 Roles and Responsibilities

Who are the key players in procurement and what are the roles and responsibilities of each Stakeholders?

The roles and responsibilities of various parties are summarized below:

Stakeholders
Public Procurement Regulator Authority (PPRA)

	 perform any other function assigned to it by the Federal Government or that is incidental or consequential to any of the aforesaid functions.
Procuring Agency (PA) and PA's Procurement Committee	 perform any other function assigned to it by the Federal Government or that is incidental or consequential to any of the aforesaid functions. Procuring Agency: Overall coordination, direction and development of procurement practices and procedures in public sector; Professional development and training of staff and officials engaged in procurement in public sector; Procurement Committee: Ensuring that best practices in relation to procurement are strictly adhered by the municipality Coordinate the development and approval of the Annual Procurement Plan Approve entries and removals from the Register of Suppliers and Consultants; Review and approve prior to any announcement of a procurement process: the method of procurement; the specifications, classifications, bills of quantities, plans, drawings and terms of reference as appropriate; and advertisements, letters of invitation and shortlists; Approve the issue of tender invitation documents and use of the appropriate methods of selecting suppliers. Consideration and approval of recommendations for award of tenders issued under competitive tendering proceedings. Review of all applications for variations, addenda, or amendments to on-going contracts.
	decisions and recommendations.

TRAINING MODULE TWO: USER MANAGEMENT

The User Management module in the e-PADS is robust, comprehensive, and based on functionality that is contained within the commercially available, off the shelf enterprise technology. That will allow its administrators / users to manage roles/groups, registration of new users, manage profile/accounts information, assign logins, OTP verification and generate passwords etc. The intended Users of this module are all types of system administrators such as:

- 1. PPRA Admin
- 2. Department Admin

Session Objectives

By the end of this session the user should be able to:

PPRA Admin

- Create and approve logins for Procuring Agency (Ministries, Departments and Sub-Departments) Admins.
- Manage their account profile information.
- Assign roles and groups to users of their own organization and ministries and departments created by the specific PPRA Admin.
- Create a Procuring Agency (Ministries, Departments and Sub Departments) in the system.

Department Admin

- Create and approve logins for Department users including admins of their respective subdepartment users.
- Manage their account profile information.
- Assign roles and groups to their respective organization and sub-department admins.
- Create sub-departments of their respective organization in the system.

E-PADS LOGIN INSTRUCTIONS

on e-Pak Acquisition and Disposal System

2

Login Instructions

This chapter delineates step-by-step instructions on getting started with the e-PADS. In this section, you will learn about:

- 1. Logging Into e-PADS.
- 2. Changing your account password.
- 3. Actions to perform if you forget your password.
- 4. Logging Out of the e-PADS.

The e-PADS has a separate landing page for User Management and Supplier Registration in the system. Enter the URL <u>https://eprocure.gov.pk</u> to load the application homepage.

Once the user enters the URL <u>https://eprocure.gov.pk</u>, the application homepage will appear.

Before You Begin...

It is recommended to use the e-PADS with Google Chrome or Mozilla Fire Fox. Older generations of browsers are also supported; however, their use can lead to issues with on-screen formatting and display.

2.1 Logging into e-PADS

The e-PADS is an e-procurement system that makes it simple for beginners and experienced users to perform end-to-end procurement activities from creating, publishing and, evaluating tenders, to contract award and post-contract award management etc.

Users can also access the e-PADS application directly by using <u>https://eprocure.gov.pk</u> URL or logging in from the PPRA website homepage. The homepage displays a basic introduction to the 'e-PADS' and a link for users to redirect to the application URL : <u>https://eprocure.gov.pk</u>.

- i. Once all the fields are specified, the Admin may proceed with splitting the ministries/departments by clicking on the Split button at the bottom left side of the screen.
- j. The system will prompt by asking "Are you sure you want to Split?". To proceed with splitting the ministry/department please click on the "Yes" button, otherwise click on "No" to revert.

3.6 Authority Delegation

a. PPRA Admins can delegate their authority to other personnel in the same organization / department. If for some reason the person is not available to come to the office for a certain time, the delegated personnel will take charge of the person's duties in his/her absence.

Following options are available to PPRA Admins for authority delegation:

- 1. Specify dates of leave / absence.
- 2. Select personnel to whom you want to delegate authority.
- 3. Provide comments regarding authority delegation.
- b. To delegate authority click on Authority Delegation.

3.12 Authority Delegation

a. Admins can delegate their authority to other personnel in the same organization / department. If for some reason the person is not available to come to the office for a certain time, the delegated personnel will take charge of the person's duties in his/her absence.

Following options are available to Department Admins for authority delegation:

- 1. Specify dates of leave / absence.
- 2. Select personnel to whom you want to delegate authority.
- 3. Provide comments regarding authority delegation.
- b. To delegate authority click on Authority Delegation.

Request Authority Delegation

- a. After clicking on Request Authority Delegation, a dashboard will appear. This dashboard shows a list of existing authorities delegated to Department personnel by Department Admin or vice versa.
- b. Using the dashboard, Admin can perform the following actions available:
 - i. Search the requested personnel from the search bar
 - ii. add new request for authority delegation by clicking on the +Add button
 - iii. Department Admins and users can view requested authority delegation information for their reference by clicking the eye button on the screen.
 - iv. Department Admin or user can Accept, Reject and Revoke authority delegation request they receive or the user who has received the request will have the right to accept or reject.
 - v. Requests that are not being responded at the moment will be given a Pending status.
 - vi. Users can delete request that have been completed/ canceled/ reject/ revoked.
 - vii. Users cannot further delegate the authority to another user. However, he/she can delegate his/her authority to another user.
